

17^e Journées d'Etudes des Milieux Poreux

November 4 to 6, 2025 in Orléans (France)

Various topics:

Energy storage
Geothermal energy
Civil engineering
Remediation
Renewable energy
Food industry
Health
Materials...

Interdisciplinary themes:

Applied mathematics
Fluid mechanics
Heat and mass transfer
Process engineering
Geosciences
Reactive transport
Numerical modeling
Microfluidics...

17 March – 13 April 2025

Abstract submission

June 2025

**Notification to
authors**

September 2025

Registration deadline

Keynote speakers

Lydéric Bocquet, Ecole Normale Supérieure, Paris
Laurent Brochard, Laboratoire Navier, Champs-sur-Marne
Carla De Tomas, Imperial College London (UK)
Jennifer Druhan, University of Illinois Urbana-Champaign (USA)
Rainer Helmig, University of Stuttgart (Germany)
Sylvie Lorthois, Institut de Mécanique des Fluides de Toulouse
